

Dear Customer,

Enclosed is everything you need to know about your Noise Nuisance Kit!

Before using your Noise Nuisance Kit, please **charge the battery to full before use** and follow the charging advice in the Norsonic Nor145 Operating Manual.

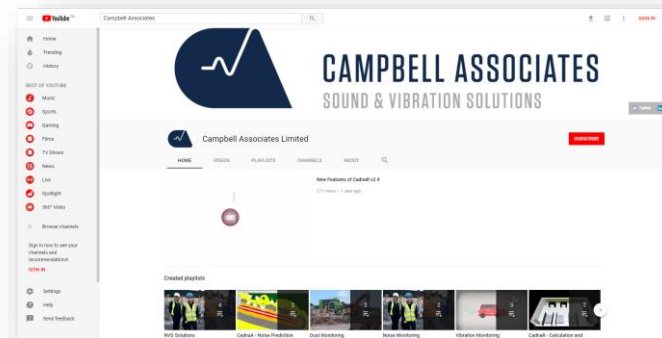

As this is a brand-new instrument, for the first time you will need to configure the meter with noise nuisance settings and create your own personalised NNR app!

To do this follow the guide ***Nor-145 - How to configure your Nor145 settings App for Noise Nuisance Recording***

We have included other guides in the pack to help with the procedure for installing, calibrating and setting up the equipment to start measuring noise. There are also a couple of quick sheets you may wish to keep with the equipment.

Do you prefer video tutorials?

Please feel free to watch out videos on YouTube if you are after more helpful tips and advice. Simply go to www.youtube.com and type Campbell Associates into the search bar (as seen in the picture below):

Should you have any questions about the setup of your kit, please contact your sales representative on 01371 871033.

Don't forget about the calibration of your kit!

For calibration contracts, please contact the office on 01371 871030 or by email at hotline@campbell-associates.co.uk

With compliments

Campbell Associates
