

INDOOR AIR QUALITY MONITORS

PRO TEST KIT FOR INDOOR AIR QUALITY MONITORING

aeroqual™

The Aeroqual Test Kit Pro is for consultants and air quality professionals who want a full set of tools to measure indoor pollutants.

The Test Kit Pro features Aeroqual's proven Series 500 portable monitor that can be used to measure a range of pollutants by simply swapping the sensor heads for the pollutant you wish to monitor.

The kit includes the following sensors: particulate matter sensor (PM2.5/PM10), three indoor pollutant gas sensors (CO, CO2, VOC), and a combined temperature and relative humidity sensor.

BENEFITS

- Complete air quality monitoring kit for measurement of a range of indoor air pollutants and VOCs
- Series 500 monitor with inbuilt real-time data logger
- Active fan sampling sensor heads (PM2.5/PM10, CO, CO2, VOC) ensure high accuracy measurements
- Zero and span calibrate sensors in the field
- Long life lithium battery technology
- Connect direct to PC via USB
- Free PC software (Windows 7 and above)

APPLICATIONS

- Indoor air quality assessments
- Personal exposure monitoring
- Health and safety compliance
- Checking indoor air pollution "hotspots"
